ABOUT ME

I'm a Spanish Full Stack Engineer with a strong foundation in Frontend technologies like React, JavaScript, TypeScript, Sass, and Tailwind CSS, I also possess backend knowledge with special mention to PHP and C++.
My hobbies, including Brazilian Jiu-Jitsu and gaming, have fostered discipline, problem-solving, and a competitive spirit that I apply to my development work. I'm a highly motivated and results-oriented individual eager to contribute to challenging projects and grow within a dynamic and collaborative team.
